# Easygoing Greens

Today's greens do more than bring the outside in; they enliven spaces with the hope and positivity that gets us through the day.

But what really sets these greens apart — style wise — is their ability to play nice with gray and neutral décors. If you've been longing to reintroduce color at home, try going big with one of these easygoing grayed greens.

# New *Heritage*

Respect for the past doesn't have to lock you into a traditional look. Bringing old pieces forward requires only that you find a way to love it — and live with it — now.

- 1 Wood Finish™ Water-Based Solid Stain in Bay Blue 1049
- 2 Wood Finish Water-Based Semi-Transparent Stain in American Walnut 1026
- 3 Wood Finish Water-Based Solid Stain in Verdigris 1239
- 4 Wood Finish Water-Based Solid Stain in Cherry Blossom 1169
- 5 Wood Finish Water-Based Solid Stain in Vintage Blue 288
- 6 Wood Finish Water-Based Semi-Transparent Stain in Harvest 1120

# All in the family.

Family heirlooms carry memories across generations but often don't suit our style. Thoughtful reimagining like this respects the piece's history but makes it more modern, more stylish and far more welcome in our home today.

No limits, just love.

The more “distressed” a piece is, the more you can love it your way: New color, new hardware, fewer doors — even wallpaper! — have turned this buffet into something intensely personal (and fabulous).
